## Head, Page Numbers, and Spacing

Number your pages consecutively throughout the paper, beginning with the title page and ending with the last page of the References list. If you are using a Microsoft product, from the "Insert" menu, choose "Header," key in the title and then select the option to insert a page number. As on the title page, the title of your paper should appear in upper-case letters, flush left, but this time without the words "Running head," while the page number appears flush right. There is no punctuation or use of *p*.

Double-space between all lines of your paper, including the title page, abstract, headings (if any), pages of the text itself, quotations, and References list. Indent the first line of every paragraph 1.25 cm (0.5 inches).
